FRIDAY, 8:30-10:00AM

MA Keynote: *The Joy in Our Work*, Marieke Van Damme, Old St. Joe's Hall

We museum workers know (and studies confirm) that our institutions directly contribute to the well-being of a community. We provide education, but we also give opportunities for social interaction, beauty, understanding, and so much more. There is great joy in our work. Unfortunately, while the product the public sees is inspiring, behind the scenes the work can be grueling. Many issues haunt some in our field: perpetually under-resourced staff, no professional human resources department, low pay with poor benefits, and more. The result is often burn out and high turnover. How can we get our joy back? Join Marieke Van Damme, founder of the Joyful Museums project, for a look at the role we all play in promoting positive workplace culture in our museums.

FRIDAY, 10:30-12:00

MA Session: *Cannery Life: Alaska, the Pacific Northwest, the Pacific Rim, and Beyond*, NWC Salmonberry

Katie Ringsmuth, Project Director, NN Cannery History Project

This presentation will explore the people and cultures from around the world that became involved in cannery industry of Alaska. Through the decades, cannery work can be traced to the influences of laws and regulations, social and economic factors, and, of course, by natural resources. These influences ever driving us to come together in work and play at remote self-sustaining complexes. Through the NN Cannery History Project, former cannery workers share stories of their cannery experience making it clear that although groups of common origins generally stuck together, cultures were not only shared, but embraced by each other. We will be sharing collected tales from the project archives, and engaging the audience and guests to join the conversation so we may all grow a greater understanding of how the long hours and strenuous labor of individuals and cultural groups coalesced into one larger common venture considered the cannery life.

Nicole Peters, Art Conservator, Peters Art Conservation Services; Daniel Papke, Preservationist, Klondike Gold Rush National Historical Park; and Katie Myers, NPS Museum Curator for Alagnak Wild River, Aniakchak National Monument and Preserve, Katmai National Park and Preserve, and Lake Clark National Park and Preserve

The Richard L. Proenneke Cabin Complex is located in Lake Clark National Park and Preserve on the southeastern shore of upper Twin Lakes, Alaska. The site is recognized nationally for its stature as an excellent example of an Alaska bush log cabin. The site is only accessible by float plane in the summer. Currently, efforts are being put forth by the NPS curatorial division, NPS preservationists, and conservators in order to develop a comprehensive preservation plan for the objects housed in this historic cabin and the outbuildings. This has proven to be a complex project requiring cross-disciplinary collaboration due to the unique preservation issues of the backcountry environment and its effect on the historic cabin objects. This presentation features a three-point perspective from NPS Curator Katie Myers, NPS Preservationist Daniel Papke, and conservator Nicole Peters, and how each member of the team dealt with logistical and ethical issues encountered throughout the project.
